

### Non-Reimbursable Project Investment Grants – Schedules & Deadlines

The application deadline for non-reimbursable project investments is **August 15th** of the current year in order to receive funds by the following June. The finance subcommittee of the CWCB reviews applications in September and recommends approval of funding to the entire Board at the bi-monthly November Board meeting. Applicants are asked to present their grant request at the subcommittee meeting and also at the November meeting if necessary. Once approved by the Board, the grant is written into the Construction Fund Bill, which is introduced to the Legislature in January. The Colorado General Assembly authorizes expenditures by approval of the Construction Fund Bill in May. Funds are then available for around July 1st if an executed contract is in place.
