Executive Summary

Section 1 – Introduction

1.1	Introduction to the SWSI 2010 Update.....	1-1
1.2	Purpose of the SWSI 2010 Update.....	1-2
1.3	CWCB History and Mission	1-3
1.4	Overview of the Water for the 21st Century Act	1-5
1.4.1	Basin Roundtable Process	1-6
1.4.2	Interbasin Compact Committee.....	1-6
1.5	Background on Colorado's Major River Basins	1-7
1.5.1	Colorado River System Basins	1-7
1.5.1.1	Colorado River Basin.....	1-8
1.5.1.2	Gunnison River Basin.....	1-9
1.5.1.3	Yampa River, White River, and Green River Basins.....	1-10
1.5.1.4	Dolores River, San Juan River, and San Miguel River Basins	1-10
1.5.2	South Platte River, Republican River, and North Platte River Basins	1-12
1.5.2.1	South Platte River Basin	1-12
1.5.2.2	Republican River Basin	1-13
1.5.2.3	North Platte River Basin	1-13
1.5.3	Arkansas River Basin.....	1-14
1.5.4	Rio Grande Basin.....	1-15
1.6	Overview of Report.....	1-16
1.7	Acknowledgements.....	1-17
1.7.1	2010 CWCB Board Members	1-18
1.7.2	2010 Basin Roundtable Leadership	1-18
1.7.3	2010 IBCC Members.....	1-18

Section 2 – Nonconsumptive Needs Assessments

2.1	Overview of Nonconsumptive Needs Assessment Process.....	2-1
2.2	Focus Area Mapping Methodology.....	2-5
2.2.1	SWSI 2 GIS Data Layers.....	2-6
2.2.2	Categorization of Data Layers	2-7
2.2.3	GIS Analysis of Data Layers.....	2-7
2.3	Nonconsumptive Focus Area Mapping Results.....	2-9

Section 3 – Nonconsumptive Projects and Methods

3.1 Nonconsumptive Projects and Methods Overview3-1

3.2 Nonconsumptive Projects and Methods Methodology.....3-2

3.3 Nonconsumptive Projects and Methods GIS Mapping and Analysis Methodology.....3-4

3.4 Nonconsumptive Projects and Methods GIS Mapping Results3-6

3.5 Funding and Legal Mechanisms to Assist Implementation of Nonconsumptive
Projects and Methods.....3-9

 3.5.1 Federal and State Funding3-9

 3.5.2 Legal Mechanisms to Support Nonconsumptive Projects and Methods
 Implementation 3-10

 3.5.2.1 Federal Tools..... 3-10

 3.5.2.2 CWCB Program Tools3-27

 3.5.2.3 Other State and State Administered Federal Program Tools3-28

 3.5.2.4 Local Tools3-30

 3.5.2.5 Multi-stakeholder and Market Based Tools3-31

Section 4 – Consumptive Needs Assessments

4.1 Overview of Consumptive Needs Assessment Process 4-1

4.2 M&I and SSI Consumptive Needs4-2

 4.2.1 Future Population Projections.....4-2

 4.2.1.1 2050 Population Projection Methodology4-2

 4.2.1.2 2050 Population Projection Results4-3

 4.2.2 Future M&I Water Demands 4-6

 4.2.2.1 2050 M&I Water Demands Methodology 4-6

 4.2.2.2 2050 M&I Water Demands Results 4-9

 4.2.3 SSI Water Demands 4-10

 4.2.3.1 Large Industry..... 4-12

 4.2.3.2 Snowmaking 4-12

 4.2.3.3 Thermoelectric Power Generation4-13

 4.2.3.4 Energy Development..... 4-14

 4.2.3.5 Statewide SSI Demand Summary 4-15

 4.2.4 Statewide 2050 M&I and SSI Consumptive Needs Summary 4-17

4.3 Agricultural Consumptive Needs.....4-20

 4.3.1 Agricultural Demand Methodology.....4-20

 4.3.1.1 Current Irrigated Acres Methodology..... 4-21

 4.3.1.2 2050 Irrigated Acres Methodology4-22

 4.3.1.3 Current Agricultural Demand Methodology4-23

 4.3.1.4 2050 Agricultural Demand Methodology4-24

 4.3.2 Agricultural Demand Results4-24

 4.3.2.1 Current Irrigated Acres Results4-24

 4.3.2.2 Future Irrigated Acres Results4-26

 4.3.2.3 Current Agricultural Demand Results4-26

 4.3.2.4 Future Agricultural Demand Results4-31

4.3.3	Agricultural Consumptive Needs Conclusions.....	4-32
-------	---	------

Section 5 – Consumptive Projects and Methods and the M&I Gap

5.1	Projects and Methods to Address the M&I Gap Overview.....	5-1
5.2	Projects and Methods to Meet M&I Consumptive Needs.....	5-1
5.2.1	Identified Projects and Processes Methodology.....	5-2
5.2.2	Estimation of 2050 IPP Yield by Basin	5-3
5.2.2.1	Statewide.....	5-4
5.2.2.2	Arkansas Basin.....	5-6
5.2.2.3	Colorado Basin.....	5-9
5.2.2.4	Gunnison Basin.....	5-10
5.2.2.5	Metro Basin.....	5-12
5.2.2.6	North Platte Basin	5-15
5.2.2.7	Rio Grande Basin	5-16
5.2.2.8	South Platte Basin	5-17
5.2.2.9	Southwest Basin.....	5-19
5.2.2.10	Yampa-White Basin.....	5-20
5.3	M&I Gap Analysis.....	5-21
5.3.1	M&I Gap Analysis Methodology	5-22
5.3.1.1	Arkansas Basin.....	5-23
5.3.1.2	Colorado Basin.....	5-23
5.3.1.3	Gunnison Basin.....	5-23
5.3.1.4	Metro Basin.....	5-24
5.3.1.5	North Platte Basin	5-24
5.3.1.6	Rio Grande Basin	5-25
5.3.1.7	South Platte Basin	5-25
5.3.1.8	Southwest Basin.....	5-25
5.3.1.9	Yampa-White Basin.....	5-26
5.3.2	Gap Analysis with Alternate IPP Yield Scenarios	5-26
5.3.3	2050 M&I and SSI Gap Analysis Results.....	5-27
5.3.3.1	Statewide.....	5-27
5.3.3.2	Arkansas Basin.....	5-32
5.3.3.3	Colorado Basin.....	5-33
5.3.3.4	Gunnison Basin.....	5-33
5.3.3.5	Metro Basin.....	5-34
5.3.3.6	North Platte Basin	5-35
5.3.3.7	Rio Grande Basin	5-35
5.3.3.8	South Platte Basin	5-36
5.3.3.9	Southwest Basin.....	5-37
5.3.3.10	Yampa-White Basin.....	5-37

Section 6 – Water Availability

6.1 Water Availability Overview 6-1

6.2 Methodology to Evaluate Surface Water Supply Availability..... 6-1

6.3 Water Availability.....6-3

6.3.1 Arkansas Basin6-3

6.3.2 Colorado, Gunnison, Southwest, and Yampa-White Basins..... 6-4

6.3.2.1 Historical Hydrology6-4

6.3.2.2 Paleohydrology6-5

6.3.2.3 Climate-Adjusted Hydrology6-5

6.3.3 North Platte Basin 6-6

6.3.4 Rio Grande Basin..... 6-6

6.3.5 South Platte Basin6-7

Section 7 – Portfolios and Strategies to Address the M&I Gap

7.1 Portfolio Approach Overview 7-1

7.2 Strategy Elements of Colorado's Future Water Supply Portfolio.....7-5

7.2.1 Identified Projects and Processes Portfolio Element7-5

7.2.2 Conservation Portfolio Element7-7

7.2.2.1 Three Conservation Strategies: Low, Medium, and High.....7-8

7.2.2.2 Cost Estimates7-12

7.2.2.3 Assumptions and Limitations.....7-12

7.2.3 Land Use and Water Supply Planning7-13

7.2.4 Agricultural Transfer and New Supply Development Portfolio Elements7-15

7.2.4.1 Agricultural Transfer Strategy Overview7-15

7.2.4.2 Alternative Agricultural Transfer Methods 7-18

7.2.4.3 New Supply Development Strategy Overview.....7-21

7.2.4.4 Reconnaissance Level Capital and Operations and
Maintenance Costs for Agricultural Transfer and New Supply
Development Strategies7-25

7.3 Portfolio Analysis7-30

7.3.1 Water Demands in the Portfolio and Trade-off Tool.....7-30

7.3.2 Portfolio Elements in the Portfolio and Trade-off Tool.....7-31

7.3.2.1 Passive Conservation.....7-31

7.3.2.2 Identified Projects and Processes7-31

7.3.2.3 Active Conservation 7-32

7.3.2.4 Agricultural Transfers and New Supply Development 7-32

7.3.3 Trade-Offs in the Portfolio and Trade-off Tool.....7-34

7.3.3.1 Decreases in Irrigated Acres7-34

7.3.3.2 Colorado River Depletions.....7-34

7.3.3.3 Size of Alternative Agricultural Transfer Program..... 7-35

7.3.3.4 Cost Estimates for User-Defined Portfolio 7-35

7.3.3.5 Nonconsumptive Trade-Off.....7-36

7.3.4 Status Quo Portfolio7-36

1-1	Colorado's nine basin roundtables provide a voluntary and collaborative process to help the state address its water challenges	1-2
1-2	Colorado's Eight Major River Basins	1-7
2-1	Contribution to Rocky Mountain Census Division 8 by Annual Economic Activity by Type	2-2
2-2	Commercial River Rafting User Days in Colorado	2-3
2-3	Nonconsumptive Needs Assessment Methodology	2-4
2-4	Basin Roundtable Focus Area Mapping Methodology	2-5
2-5	Rio Grande Basin Environmental and Recreational Subcategories.....	2-8
2-6	Arkansas Basin Nonconsumptive Needs Assessment Environmental and Recreational Subcategories by 12-Digit HUC	2-13
2-7	Rio Grande Basin Nonconsumptive Needs Assessment Environmental and Recreational Subcategories by 12-Digit HUC	2-14
2-8	North Platte Basin Nonconsumptive Needs Assessment Environmental and Recreational Subcategory Count per Stream Segment	2-15
2-9	Southwest Basin Nonconsumptive Needs Assessment Environmental and Recreational Subcategory Count per Stream Segment	2-16
2-10	Gunnison Basin Nonconsumptive Needs Assessment Major Stream and Lake Segments	2-17
2-11	Yampa/White Basin Nonconsumptive Needs Assessment Major Environmental and Recreational Segments	2-18
2-12	Metro Basin Nonconsumptive Needs Assessment Candidate Environmental and Recreational Focus Areas.....	2-19
2-13	South Platte Basin Nonconsumptive Needs Assessment Candidate Environmental and Recreational Focus Areas.....	2-20
2-14	Colorado Basin Nonconsumptive Needs Assessment Environmental and Recreational Features at Risk	2-21
2-15	Statewide Nonconsumptive Needs Assessment Focus Map	2-22
3-1	Statewide Basins Nonconsumptive Needs Assessment Projects and Methods	3-33
3-2	Statewide Basins Nonconsumptive Needs Assessment Projects and Methods Status	3-34
3-3	Statewide Basins Nonconsumptive Needs Assessment Study Status.....	3-35
3-4	Statewide Basins Nonconsumptive Needs Assessment Focus Areas with Projects and Methods.....	3-36
4-1	State of Colorado Population Projections through 2050	4-4
4-2	M&I Water Usage Rate by Basin	4-8
4-3	Comparison of M&I Demands for Baseline and with Passive Conservation.....	4-10
4-4	M&I Water Demands by Basin	4-12
4-5	Statewide SSI Water Demands by Sector	4-17
4-6	Statewide M&I and SSI Demands	4-18
4-7	Existing and Future M&I and SSI Demands	4-19
4-8	State of Colorado Current Irrigated Acres by Water District.....	4-25

4-9 Potential Changes in Irrigated Acres by 2050.....4-28

4-10 Comparison of Current and 2050 Irrigated Acres4-29

4-11 State of Colorado Current Agricultural Shortages by Water District4-30

4-12 Current Agricultural Demands and Shortages 4-31

4-13 2050 Agricultural Demands and Shortages4-32

5-1 Statewide Summary of Yield for IPP Categories at 100% Success Rate 5-5

5-2 Arkansas Basin Location Map5-7

5-3 South Platte Basin Location Map5-13

5-4 Statewide M&I and SSI Gap Summary Medium Scenario5-29

5-5 2050 M&I and SSI Gap Analysis – Medium Gap Scenario..... 5-30

5-6 Potential Yield of NEPA Projects Relative to 2050 New Demands, Other IPPs, and
Gap in South Platte and Metro Basins5-31

5-7 Potential Yield of NEPA Projects Relative to 2050 New Demands, Other IPPs, and
Gap in Arkansas Basin 5-32

6-1 Estimated Median Amount of Available Flows in South Platte Basin Based on
Various Models..... 6-8

6-2 Yield Curve, South Platte River below Chatfield 6-9

7-1 Elements of the Visioning Process 7-1

7-2 Colorado's Water Supply Future Water Demand and Supply Scenarios7-3

7-3 Portfolio Elements to Address Colorado's Future M&I Demands7-4

7-4 Example 2050 M&I Needs and Associated Portfolio from Portfolio and Trade-off
Tool7-6

7-5 Overview of Agricultural Transfer and New Supply Development Concepts 7-16

7-6 Summary of Reconnaissance Capital Costs7-28

7-7 Summary of Reconnaissance O&M Costs.....7-28

7-8 Summary of Reconnaissance Life Cycle Costs7-29

7-9 Summary of Reconnaissance Life Cycle Unit Costs.....7-29

7-10 IPP Success Rate Data Entry Screen from Portfolio and Trade-Off Tool.....7-31

7-11 Reduction in Irrigated Acres in 2050 Based on Status Quo Scenario..... 7-37

7-12 Size of Rotational Fallowing Program Required in the South Platte and Arkansas
Basins for Status Quo Portfolio7-38

4-11	Future Irrigated Acres by River Basin.....	4-27
4-12	Estimated Current Agricultural Demand by Basin	4-29
4-13	Estimated 2050 Agricultural Demand by Basin	4-31
5-1	Major Categories of Identified Projects and Processes by Basin	5-4
5-2	Arkansas Basin IPP Summary at 100% Success Rate	5-8
5-3	Colorado Basin IPP Summary at 100% Success Rate	5-10
5-4	Gunnison Basin IPP Summary at 100% Success Rate.....	5-11
5-5	Metro Basin IPP Summary at 100% Success Rate	5-14
5-6	North Platte Basin IPP Summary at 100% Success Rate.....	5-15
5-7	Rio Grande Basin IPP Summary at 100% Success Rate.....	5-16
5-8	South Platte Basin IPP Summary at 100% Success Rate	5-18
5-9	Southwest Basin IPP Summary at 100% Success Rate	5-20
5-10	Yampa-White Basin IPP Summary at 100% Success Rate	5-21

5-11 IPP Success Rates for the Medium and High Gap Scenarios5-26

5-12 Statewide M&I and SSI Gaps in 20505-28

5-13 Arkansas Basin M&I and SSI Gaps in 2050 5-33

5-14 Colorado Basin M&I and SSI Gaps in 2050 5-33

5-15 Gunnison Basin M&I and SSI Gaps in 20505-34

5-16 Metro Basin M&I and SSI Gaps in 2050 5-35

5-17 North Platte Basin M&I and SSI Gaps in 2050 5-35

5-18 Rio Grande Basin M&I and SSI Gaps in 2050..... 5-36

5-19 South Platte Basin M&I and SSI Gaps in 20505-36

5-20 Southwest Basin M&I and SSI Gaps in 2050 5-37

5-21 Yampa-White Basin M&I and SSI Gaps in 20505-38

6-1 Major Interstate Compacts, Decrees, and Endangered Species Programs by Basin.....6-2

6-2 South Platte Basin Water Allocation Models Summary.....6-7

7-1 IPP Success Rates Considered by IBCC7-6

7-2 Comparison of 2050 Implementation and Penetration Level for Three
Conservation Strategies and Demand Reductions Used in Forecasts.....7-9

7-3 Statewide Forecast Water Savings Potential from SWSI 1, SWSI 2, and SWSI 2010 7-10

7-4 Statewide Forecast Water Savings (separating passive and active) Potential from
SWSI 1 and SWSI 2010..... 7-11

7-5 Agricultural Transfer Strategy Concepts Attributes7-17

7-6 Benefits, Impacts, and Opportunities for Agricultural Transfer Strategy –
Traditional and Alternative Agricultural Transfers 7-18

7-7 New Supply Development Concepts Attributes7-21

7-8 Benefits, Impacts, and Opportunities for New Supply Development Strategy 7-23

7-9 Direct Water Use Scenarios for Build-out Oil Shale Industry7-30

7-10 Total Yield After Reuse by Exchange or Recapture7-34

7-11 Status Quo Medium M&I Demand Portfolio7-38

Acronyms

Act	Colorado Water for the 21st Century Act
AF	Acre-Feet
AFY	Acre-Feet/Year
ATM	Alternative Transfer Methods
AVC	Arkansas Valley Conduit
BLM	Bureau of Land Management
BNDSS	Basin Needs Decision Support System
BOR	U.S. Bureau of Reclamation
CBEF	Center for Business and Economic Forecasting
CDOW	Colorado Division of Wildlife
CDPHE	Colorado Department of Public Health and Environment
CDSS	Colorado Decision Support System
CFWE	Colorado Foundation for Water Education
CRWAS	Colorado River Water Availability Study
CSA	Combined Service Area
CSU	Colorado Springs Utilities
CU	Consumptive Use
CU&L	Consumptive Uses and Losses
CWA	Clean Water Act
CWCB or Board	Colorado Water Conservation Board
CWI	Colorado Water Institute
CWRPDA	Colorado Water Resources and Power Development Authority
CWW	Colorado WaterWise
DLG	Division of Local Government
DMRP	Drought Mitigation and Response Plan
DNR	Department of Natural Resources
DOLA	Department of Local Affairs
DPOR	Division of Parks and Outdoor Recreation
DSS	Decision Support System
DWR	Division of Water Resources
ECCV	East Cherry Creek Valley
EIS	Environmental Impact Statement
EQIP	Environmental Quality Incentives Program
ESA	Endangered Species Act
FERC	Federal Energy Regulatory Commission
FGIC	Financial Guaranty Insurance Company
FIF	Fishing is Fun
Fry-Ark	Fryingpan-Arkansas
GCMs	General Circulation Models
GIS	Geographic Information System
GOCO	Great Outdoors Colorado
gpcd	Gallons per Capita per Day
HB	House Bill
HUC	Hydrologic Unit Code

IBCC	Interbasin Compact Committee
IPPs	Identified Projects and Processes
ISAM	Irrigation Systems Analysis Model
ISF	Instream Flow
IUP	Intended Use Plan
IWR	Irrigation Water Requirement
LAVWCD	Lower Arkansas Valley Water Conservancy District
LSPWMSSR	Lower South Platte River Water Management and Storage Sites Reconnaissance Study
LWCF	Land and Water Conservation Fund
M&I	Municipal and Industrial
mg/L	Milligrams per Liter
NAWQA	National Water Quality Assessment Program
NCNA	Nonconsumptive Needs Assessment
NEPA	National Environmental Policy Act
NFWF	National Fish and Wildlife Foundation
NHD	National Hydrography Dataset
NISP	Northern Integrated Supply Project
NPS	Nonpoint Source
NPS	National Park Service
NRCS	Natural Resource Conservation Service
NSIP	National Streamflow Information Program
O&M	Operations and Maintenance
PBWW	Pueblo Board of Water Works
POR	Period of Record
PRRIP	Platte River Recovery Implementation Program
PRWCD	Purgatoire River Water Conservancy District
RCAC	Rural Community Assistance Corporation
RICD	Recreational In-Channel Diversion
RMPs	Resource Management Plans
RO	Reverse Osmosis
RRWCD	Republican River Water Conservation District
SB	Senate Bill
SDO	State Demographer's Office
SDS	Southern Delivery System
SPDSS	South Platte Decision Support System
SRGAP	Southwest Regional Gap Analysis Project
SSI	Self-Supplied Industrial
SWSI	Statewide Water Supply Initiative
TDS	Total Dissolved Solids
UAWCD	Upper Arkansas Water Conservancy District
UGRWCD	Upper Gunnison River Water Conservancy District
UPCO	Upper Colorado River Study
USACE	U.S. Army Corps of Engineers
USDA	U.S. Department of Agriculture
USEDA	U.S. Economic Development Administration
USEPA	U.S. Environmental Protection Agency
USFS	U.S. Forest Service
USFWS	U.S. Fish and Wildlife Service
USGS	United States Geological Survey

WGFP	Windy Gap Firing Project
WISE	Water Infrastructure and Supply Efficiency
WQCC	Water Quality Control Commission
WQCD	Water Quality Control Division
WRP	Wetland Reserve Program
WSFR	Wildlife and Sport Fish Restoration
WSL CU	Water Supply Limited Consumptive Use
WSR	Wild and Scenic River
WSRA	Water Supply Reserve Account
